ADVANCED TRAINING

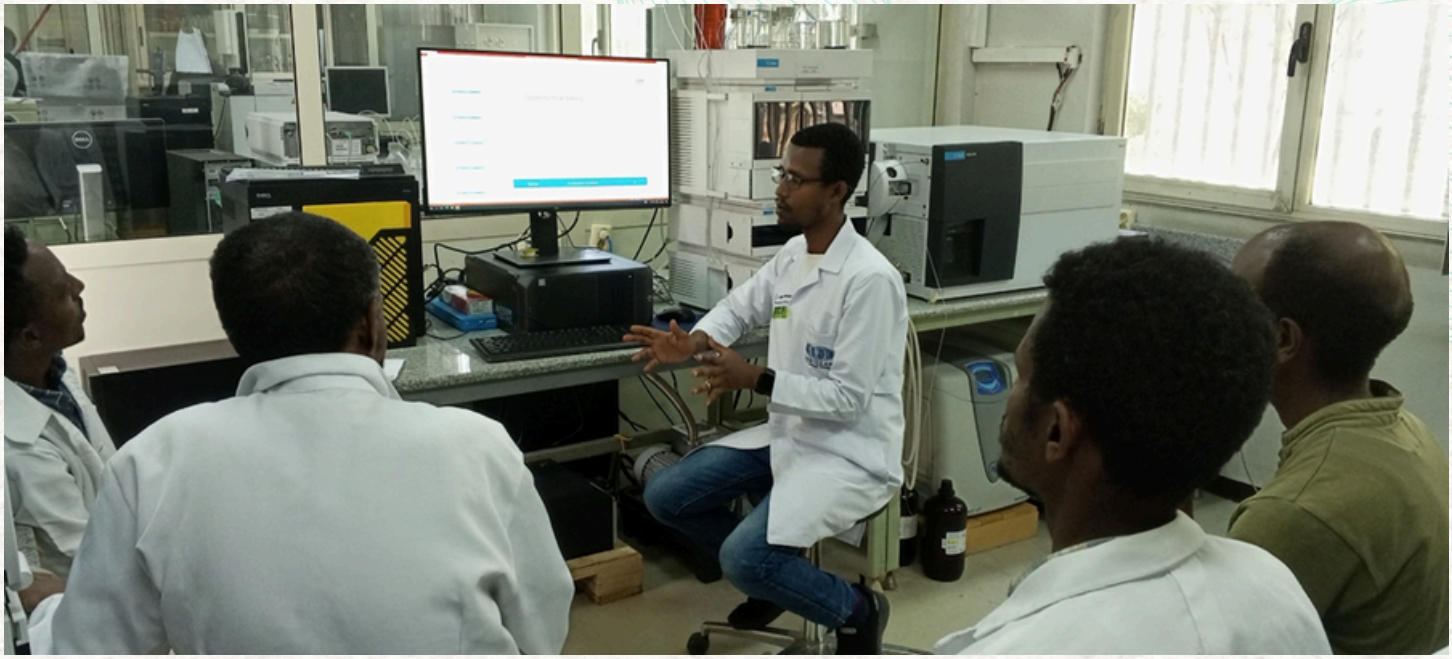

ANIMAL PRODUCTS AND INPUT QUALITY TEST CENTER (API-QTC) ADDIS ABABA, ETHIOPIA

We are a leading solution provider for analytical and life science laboratories in East Africa.
We are successfully accomplished the project we enter with UNIDO under Project No. 170180 (Contract No. 3000120513), we were contracted to provide training and technical service for Animal Product and Input Quality Test Center (API-QTC):

- To conduct Advanced-level method-based application training on quantification of Mycotoxins, antibiotic, and veterinary drug residue analysis using LC-MS/MS and spectroscopy techniques on milk and meat samples.
- To perform a complete technical assessment on non-functional equipment, including the 6420 LC-MS/MS, 1260 Infinity II HPLC, and Jenway 6850 UV-Vis spectrophotometer.
- To provide preventive and compliance services for LC-MS/MS and UV-Vis Spectroscopy.

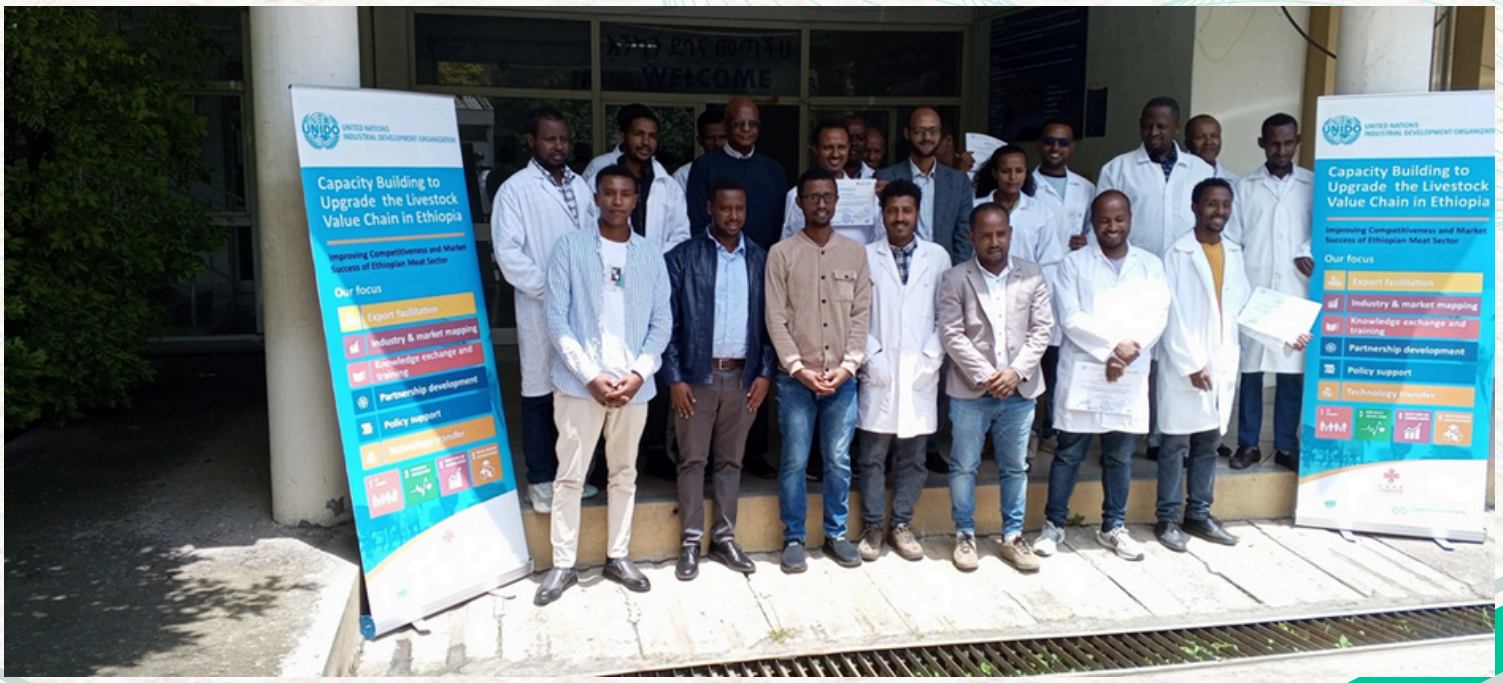

TRAINING CLOSING EVENT AT ANIMAL PRODUCTS AND INPUTS QUALITY TESTING CENTER IN COLLABORATION WITH UNIDO

Advanced Training on ICP-OES

Debre Zeit Agricultural Research Center, Bishoftu, Ethiopia

The Debre Zeit Agricultural Research Center (DZARC) in Bishoftu, Ethiopia recently received advanced-level training on Inductively Coupled Plasma Optical Emission Spectroscopy (ICP-OES). This comprehensive training program was designed to enhance the knowledge and skills of participants in the application of ICP-OES for the quantification of heavy metals in soil and wastewater samples. The main objectives of the training delivered by Our Company were:

- To conduct Advanced-level method-based application training on quantification of heavy metals from soil and waste water.
- To build the capacity of trainees on the major instrumental and application part of the Inductive coupled Plasma Optical Emission Spectroscopy (ICP-OES).
- To train participants on the advanced instrumentation and Application training of Inductive coupled Plasma Optical Emission Spectroscopy (ICP-OES).
- To conduct ICP-OES Instrument Preventive maintenance and Troubleshooting training

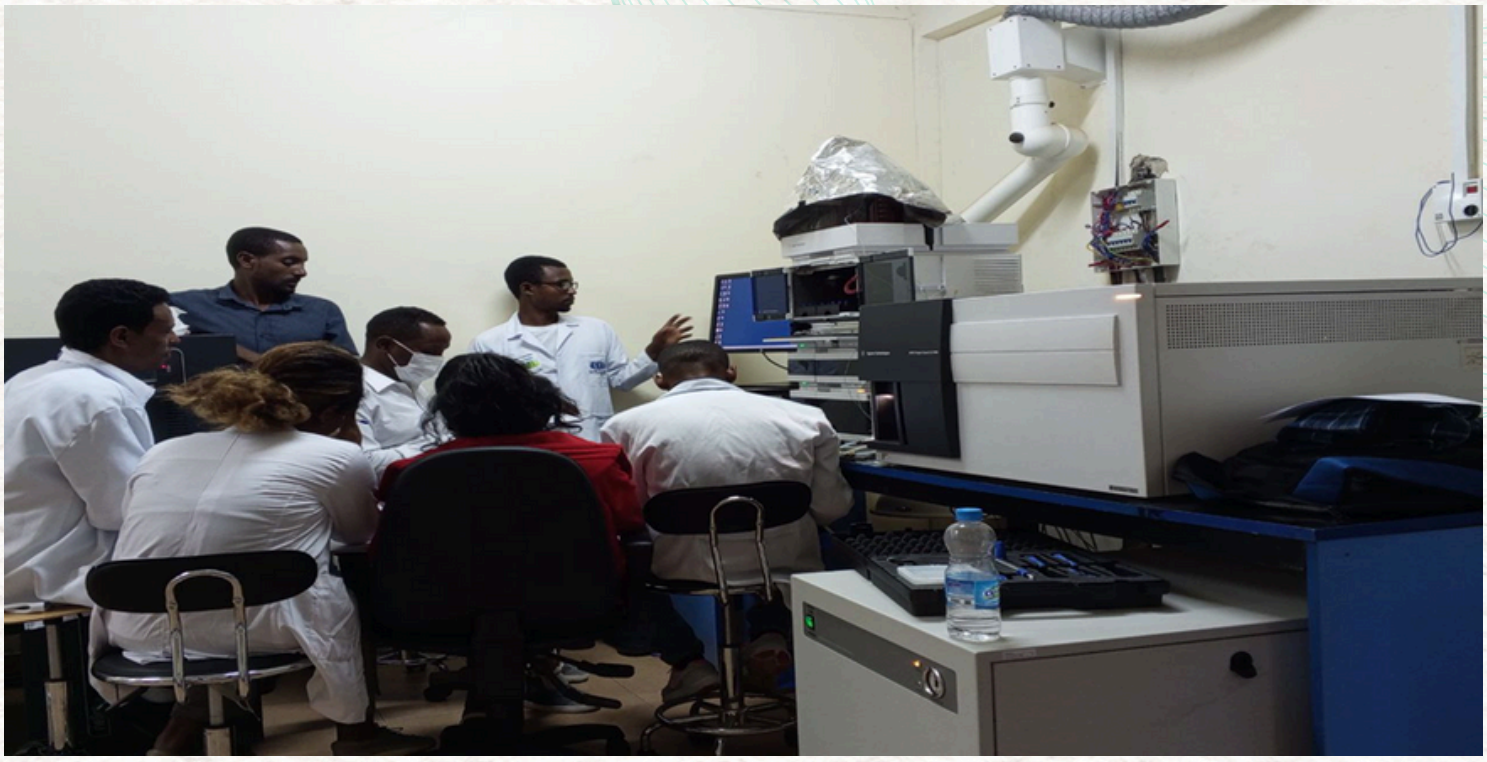

ADVANCED TRAINING

ABBAY BASIN ADMINSTRATION OFFICE (ABAO) BAHIR DAR, ETHIOPIA

JIJE LaboGlass PLC, a leading provider of analytical and life science laboratories and training services in East Africa, recently delivered a comprehensive training program to the Abbay Basin Administration Office (ABAO) Bahir Dar, Ethiopia. The training focused on equipping participants with hands-on experience and in-depth knowledge in various analytical techniques, including:

- Instrumentation and application training on the operation of LC-MS/MS through pesticides analysis from water
- Instrumentation and application training on the basic operation of GC-MS/MS through pesticides analysis from water
- Water quality monitoring using remote sensing techniques
- Instrumentation and application training on UV-Visible spectrophotometer through total phosphorus analysis from waste water
- Sample preparation through Microwave digestion, Soxhlet extraction, rotary evaporation and GC-MS/MS head space techniques

FAMILIARIZATION TRAINING ON BUCHI NIR MASTER

UNILEVER DUKEM, OROMIA, ETHIOPIA

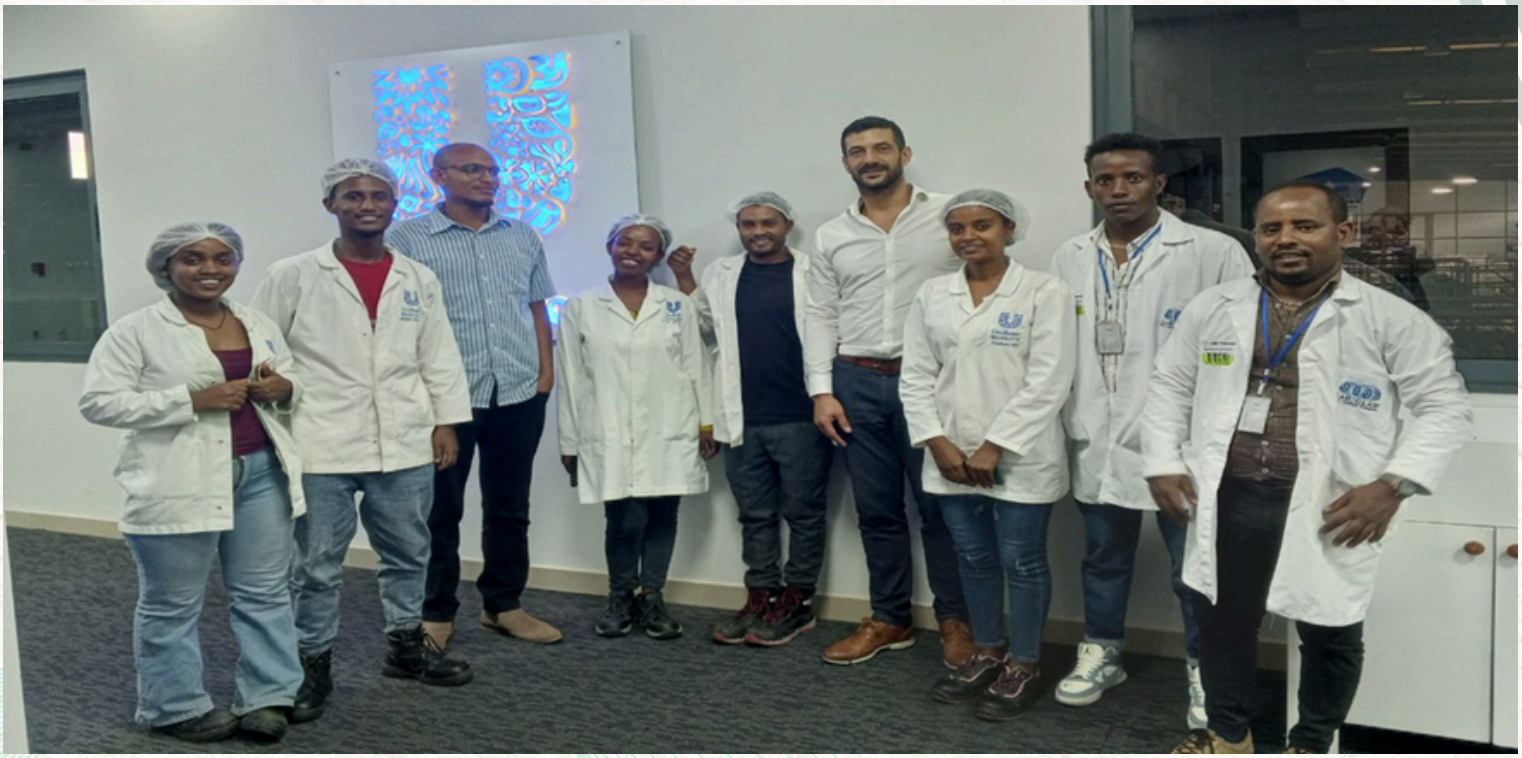

Our Company is an authorized distributor of BUCHI products, which is headquartered in Switzerland. As a trusted partner, we provide comprehensive support, including training and after-sales services, to ensure the optimal performance and utilization of BUCHI instruments.

Recently, our company invited an expert from BUCHI and delivered comprehensive familiarization training on the BUCHI NIR Master and NIR Proximate to personnel from Unilever and JIJE LaboGlass PLC respectively.

The training covered the following aspects:

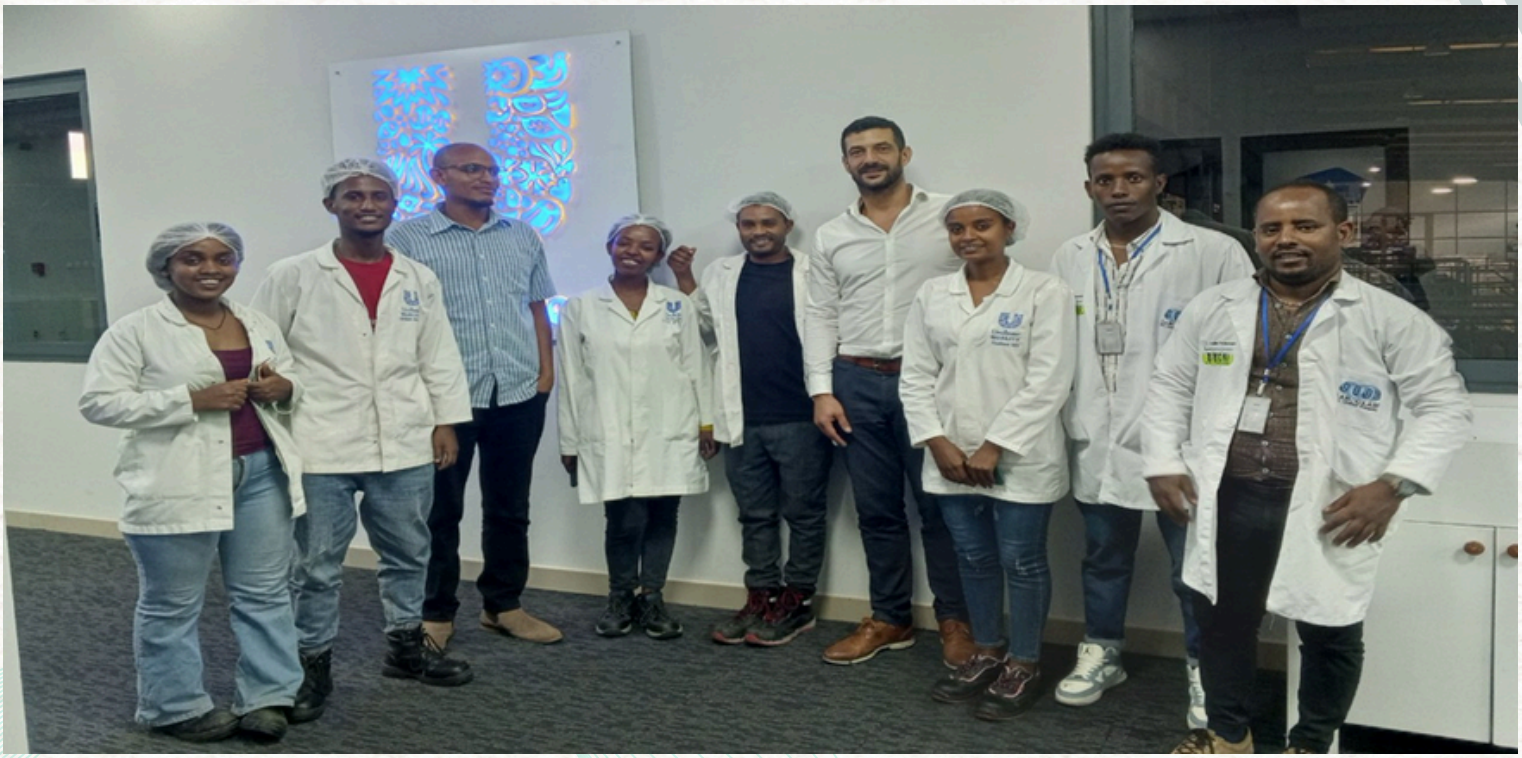

- To Introduce the participants to the features and functionalities of the NIR Master and NIR Proximate instruments
- To Provide hands-on experience in operating the instruments and interpreting the generated data
- To Equip trainees with the necessary knowledge and skills to effectively utilize the NIR instruments in their respective organizations
